See note regarding Blue Mountain Crushing S/47/0119. The bond is expired/expiring. I will write them a DD to reclaim.

April

April,

Blue Mountain Crushing, LLC operates a mineral materials site on trust lands under ML 52715-MP, issued for the Seep Ridge Road Project. The SITLA permit expires November 30, 2014, at which time reclamation of the site is required by the terms and conditions of the SITLA contract. I understand that reclamation of the site is also required by terms of the DOGM permit which was issued for the project. Please keep me informed of all progress toward reclaiming the site located on the following described parcel of trust land.

T15S, R23E, SLB&M
Section 26: SE4SE4

Please contact me if you need any more information regarding the SITLA permit, or if I may be of assistance in this matter. I believe that Uintah County may also be of assistance in directing Blue Mountain Crushing, LLC to perform the required reclamation work, since the County has oversight for Seep Ridge Road construction. Thank you.

John T. Blake
Deputy Assistant Director/Minerals
Utah School and Institutional Trust Lands Administration
